## Web Consultancy

- General Description

Our web consultancy service is aimed at analyzing, improving, and developing digital projects that include websites, web applications, and digital platforms. We focus on strategy, development, optimization, and maintenance of your digital assets.

- Proposed Services

- **Web Project Analysis and Strategy:** Detailed assessment of your digital needs and development of a strategic plan to achieve your goals.
- **Design and Development of Web Solutions:** Advice and execution in the design and development of web projects that meet modern standards and user expectations.
- **Search Engine Optimization (SEO):** Improvements in the visibility and positioning of your digital projects in search engines.
- **Debugging and Error Correction:** Diagnostic and correction services to ensure the optimal and efficient functioning of your digital assets.
- **Analytics and Performance Measurement:** Implementation of analytical tools and detailed reports to inform future decisions and strategies.
- **Technical Support and Ongoing Maintenance:** Ongoing support and maintenance to ensure the long-term update and effectiveness of your digital projects.

- Price

\$60 (sixty) dollars/hour.

- Terms and Conditions

Changes in the scope of the project may result in adjustments to the cost and delivery times.

A detailed agreement is required to start the project specifying scope, deliverables, and deadlines.
