Web Development

- General Description

We offer custom web development solutions using the latest technologies and best practices to create websites, applications, and systems that are both innovative and effective.

- Proposed Services

- **Responsive Design:** Review and improvement of user experience on mobile devices, tablets, and desktop computers.
- **Frontend and Backend Development:** Use of modern programming languages and frameworks for frontend development (such as React, Angular, or Vue.js) and backend (such as Node.js, Django, or Ruby on Rails) to create robust and scalable applications.
- **Performance Optimization:** Improvements in website loading speed and performance, including image optimization, CSS/JS minification, and implementation of lazy loading.
- **SEO Friendly:** Development of websites optimized for search engines, including semantic structure, effective metadata, and friendly URLs.

- Price

\$60 (sixty) dollars/hour.
