e-commerce

- Description

A website with e-commerce functionality will be delivered. The design of the website and its content will have been previously agreed upon with the client.

- Deliverables

- “Home” page: This section will contain general information about the client, as well as a selection of photographs each related to the services or specializations offered.
- “About Us” page: Information that the client decides to display about themselves will be placed here.
- Services page: Photo galleries and information dedicated to each of the different services provided by the client.
- “Contact” page: A section dedicated to containing a contact form through which the site's users can contact the client.
- Registration of Google Analytics, Google Search Console, and/or Facebook Pixel.
- SEO services optimization: Page SpeedTest and structured data.
- E-commerce functionalities: creation, modification and deletion of: users, categories, products, characteristics, attributes and orders.
- Optional blog feature available.

- Price

- \$8,760.00 (eight thousand seven hundred sixty) dollars.
- **Conditions:** 50% advance payment and 50% upon final delivery.

- Terms and Conditions

A maximum of 2 month from the delivery of the client's information is estimated for the completion of the website. During this time, three revisions will be conducted where the client will present the modifications and/or corrections to be made. The site will be delivered upon completion of the third revision, so any modification after the delivery of the site will have to be quoted again.
